with you

To tell you what you mean to me!

Five Little Bubbles Song

5 little bubbles, floating to the floor
One bubble popped! (kids clap hands
as you say popped)

And then there were 4

4 little bubbles as round as can be,
One bubble popped and then there
were 3

3 little bubbles were flying just to
you,

One bubble popped and then there
were 2

2 little bubbles were having so much
fun,

One bubble popped and then there
were 1

1 little bubble as round as the sun,
One bubble popped and then there
none!

Pizza
Counting Game

Items Needed:

- Red Marker
- Black Marker
- 2 White Paper Plates
- Scissors

Directions:

1. Take one paper plate and cut it into 8 pizza slices.
2. For each slice draw red dots ranging from 1 to 8.
3. On the other paper plate, use the black marker and draw 8 slices and number each slice from 1 to 8. (Whole Pizza).
4. On the paper plate that you cut into pieces, use the red dots and add them to each slice to match one of the numbers on the whole pizza.

Make Your Own Spotting Scope

This activity is an inexpensive way to teach young children about sorting, counting, colors, and shapes. All that is needed for this activity is a place to walk around and your spotting scope!

Items Needed:

- Cardboard tubes
- Tape or Glue
- Construction Paper
- Hole Punch (Optional)
- String
- Markers or Crayons
- Additional supplies for decorating

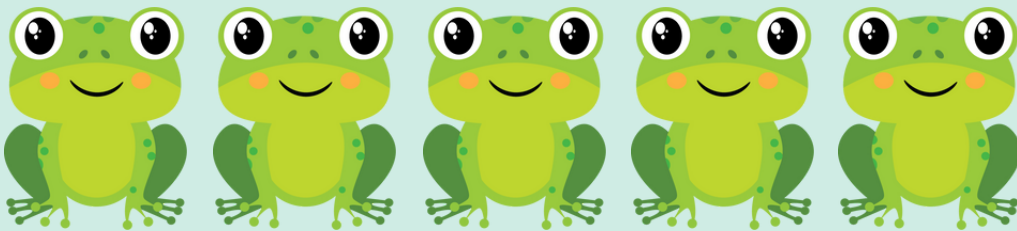

Directions:

1. Tape two cardboard tubes together. (You can make one long scope or tape the rolls side by side, like binoculars)
2. Wrap the tubes with construction paper and secure with tape, keeping the ends open for viewing.
3. Use scissors or a hole punch to make a small hole on each side of your spotting scope to attach a neck strap
4. Cut a piece of string long enough to tie to each side of the scope and hang around your neck. Send one end of the string through one of the holes and tie a knot. Repeat on the other side.
5. Decorate with craft supplies, glue, markers, and crayons and go explore!!!
