

# GAME REVIEW

Title: Roblox  
Age Rating: 13+  
Gaming System: PC + Tablet +  
Smart Phone  
Teen Difficulty Rating: 3/5  
Teen Rating: 3/5

## Description:

Roblox is a video game rated E10+ where there are over a whopping 40 million games to try and explore! One thing I want to mention is that Robux is a HUGE part of Roblox because you can buy (you need your parent's permission and a credit card) Robux and use it in so many ways to accessorize your character in ALL the games. Some of the games I've played are called: "Adopt Me!" where you can adopt normal pets you'd expect in real life; such as dogs and cats, but then it gets kinda wild with dragons and unicorns! Another game I've tried is called "Royal High" where you can be a prince or princess and the cool thing you can do is get diamonds by participating in activities in Royal High school and then get accessories such as hats and shoes to put on your pixelated prince or princess character. I've visited "Welcome to Bloxburg" whenever I feel like being creative. You can build anything there! Try building a hotel or a cafe! I've done both! Plus, you can even get a job and earn money-how cool is that?

## Favorite or Least Favorite Part:

My favorite part of Roblox is designing your character. There are so many different hats, hair, clothing and accessories! It is so fun when you can design your character however you want.
