Description:

The movie Aladdin is an incredible movie with fantastic scenes that will make kids and adults laugh. The actors and actresses do an amazing job at portraying the cartoon. The animations are perfect, you feel like you are in the movie. The songs are playful, they make you want to sing along. It is a movie that reflects Arabia and its treasures. It is an amazing film for all ages which makes it excellent because sometimes it is hard to find a film that fits everyone. I recommend this film to everyone especially families with little and teen kids.

Favorite or Least Favorite Part:

My favorite part of the movie is when Aladdin asks the Genie to become a Prince and they go to the castle of the Sultan. This is my favorite part because when Aladdin goes to the castle he goes with elephants, dancers, and gold.
