## Description:

My opinion about monster inc is that Its really funny and sad. I loved this movie! if I had to rate it out of 10 this will defiantly be a 10. Some parts are really funny, and some parts get scary but the turn out alright. I got a bit sad at the end, but it was all good. I loved this movie!

Favorite or Least Favorite Part:

My least favorite part was when James, Mike, Randall, and Boo were on doors and about to fall 60 feet down. My favorite part was when James would chase Boo around the whole mens room. But in all it was all good.
