You are able to add images and text here. Once happy with your design, select Make It.

Next you will see this. Here, you will be able to select the paper size and see how your design will be cut. After this you will click Continue, pick your material, load your mat and press Go.
In Design Space, you can browse their projects or create a New Project.
If you are using a computer, open your Bluetooth settings and select Cricut Explore. The pairing code is 0000. You can also connect using the USB Cable to connect your computer and Cricut. Download Design Space via the Cricut website. Once downloaded, create or sign into your Cricut account. Now start designing!

You will also have to connect the Cricut to your computer, you can follow the prompts in **Product Setup**.

You will select the **Explore Family**.
Designing in Cricut Design Space on App

Design Space is a grid that matches your mat. It will look like this.

Once here, you can add any images or text that you would like to design with the Cricut.

Once you're happy with your design, select Make It.

Next, you will see your project on a mat. Here, you can adjust the paper size. Typical size is 12x12 or 8.5 x 11.
